WORK EXPERIENCE

PRESENT

Technical Copywriter and QA Engineer . 4 mos

Ronak Software Group . Iran. Tehran . Tehran

AUG 2019

Since its inception in 2016, Ronak Software Group has been working with a creative and professional software development team and is constantly developing new ideas. Our first specific product "Nested" is a platform for team and corporate communications management to manage tasks, conversations, and an integrated email system. Our other successful product is "River Messenger", which enables end-to-end or group chat as well as unlimited file uploads in a secure and cross-platform application. Our company also collaborates on the programming and development of some large projects including Asan Pardakht and Iran Internet Group (IIG). These include the SnappQ Entertainment app, the Snapp Marketing Automation, the Snappfood VMS system, and Snappfood Social.

We believe that achieving success is a challenge, so we warmly welcome it. Our biggest asset is our team.
